Welcome,

Thank you for your interest in Moosehead Cedar Log Homes as well as potentially becoming a dealer.

It would be difficult to outline all of the information that you would require to decide on becoming a dealer in this portion of our website. We do hope that we have provided a sufficient overview that answers your basic questions and sparks an interest to further investigate a dealership opportunity with us.

Moosehead Cedar Log Homes is a locally owned and operated company from Greenville Maine; where local Maine craftsman produce our log home packages. We primarily offer homes crafted from Northern White Cedar which is know for its durability and stability, thus allowing us to offer a limited lifetime warranty on our log elements. Having our corporate offices and production facility within an earshot of one another allows us to work with our customers from the beginning of the design phase to delivery of the log home.

You can be rest assured that you would be partnering with a producer of one of the best log home packages in the country which already has a strong network of enthusiastic dealers.

We are currently interested in expanding our dealer network throughout the United States and Canada.

Please continue to review the information. If at any point questions arise or you wish to discuss our dealership opportunities, simply call or e-mail our corporate headquarters.

Again thank you for your time as well as your interest in Moosehead Cedar Log Homes and its dealership opportunities.

Sincerely,

Randall Comber, President
